Yacht Standard / Parts budget

1,481 PIECES / USD / CONTIGUOUS UNITED STATES

ESTIMATED DELIVERED COST

\$185 – \$490

Before sales tax. Planning range, not a quote.

Parts + 10% sourcing allowance \$160 – \$430

Estimated shipping \$25 – \$60

The 10% allowance covers spares, minimum-order top-ups and sourcing overruns. Shipping is a separate allowance across several orders.

WHAT THIS INCLUDES

Genuine LEGO parts. The lower estimate assumes patient shopping and some good used parts. The upper estimate allows predominantly new parts, higher colour costs and less favourable prices. Both include estimated shipping.

NOT INCLUDED

State/local sales tax, assembly labour, sorting, printing, display framing, mounting hardware and import charges.

SOURCING ASSUMPTIONS

Based on the current model inventory, with design-level price assumptions calibrated to sampled listings. It is not a fully priced shopping cart. Exact colours, required quantities and seller stock still need checking before purchase.

Projection dated 7 September 2026. Price samples may be cached; shipping and colour premiums are estimates. No stock is reserved. Ranges are rounded outward to \$5.

PRICE REFERENCES / SELECT TO OPEN

- LEGO US: 1x1 plates, \$0.06-\$0.07
- LEGO US: sample plates and colour prices
- US listing: ten black 2x8 plates, \$2.65

These examples anchor the estimates; they do not establish bulk availability. Parts and colours have not been changed in this guide.

A clear path, one piece at a time.

Keep the bow pointing left, as it appears in every placement diagram. Work through the numbered pages in order. Each page shows up to 18 new pieces, with an exact location for each one.

01 Follow the colours

Coloured pieces are new on the current page. The pale background shows what you have already assembled.

02 Match the numbers

The lime number on each piece matches its row in the placement table. Each row represents one piece.

03 Find the starting stud

A start position such as G25 means row G, column 25. It is the top-left cell of the piece footprint in the diagram.

04 Count the height

Base level is measured in plate heights above the lowest surface. One plate is 3.2 mm; one standard brick is three plates.

05 Orient the part

For rectangular pieces, the longer dimension runs left to right. Size is written as columns x rows. Round pieces are shown as circles.

06 Explore in 3D

Use Nooks Create to orbit the yacht, inspect the underside, isolate a section, or replay the falling-piece assembly.
